HAWORTHIA CATALOGUE

This catalogue follows the new system of classification as set out in the book 'HAWORTHIA REVISITED' by M.BRUCE BAYER

Every attempt is made to ensure authenticity of collections and identifications and these are indicated JDV [J.D.VENTER] MBB [M.B.BAYER] PVB [P.V.BRUYNS] GDM [G.D.MARX]. Unnumbered collections generally have their origin as from the KAROO BOTANIC GARDEN, WORCESTER.

The stunning publication by BRUCE BAYER, 'HAWORTHIA UP-DATE', profusely illustrated and summarizing some of the results of four years work since 'HAWORTHIA REVISITED', is now available. This work has made some name changes necessary as published in HAWORTHIAD Vol.16 no.3, 2003.

SHEILAM has embarked on a new strategy with the growing and marketing of Haworthias. We have been fortunate to use plants from the collection of Bruce Bayer to cross-pollination. We have temporarily thus removed many of the species from our list as we need to consolidate stocks. SHEILAM is confident that most of these varieties should again be available in the next two to three years. In the case of many of the varieties they have been split up in clones and we need to first propagate before making them available.

THE FOLLOWING CONDITIONS OF SALE APPLY TO OVERSEAS BUYERS.

1. MINIMUM ORDER R500
2. Payment in advance. Orders will only be executed when money to cover the costs is received. Cheques will no longer be accepted. Kindly send a bank draft or arrange for money to be sent through our bankers. We unfortunately do not have a VISA card facility.

2. Postage and packaging minimum of R65 (<1 kg Speed Services)

HAWORTHIA MARCH 2009

We have noticed a marked tendency towards hybridization. It will remain the priority of Sheilam Nursery to only grow field true plants through hand pollination and seed

marked in red = new additions or plants available again

m = only mothers and not for sale

seedlings = 1/2 years old and too small to sell

ltd = very limited stock
