ACCOUNT NR: 08 234 9576  
BRANC NUMBER: 05 04 13  
SWIFT CODE: SBZAJJ

2. Purchaser must indicate how plants are to be dispatched.
  - a) **By airmail:** The cost of the postage is generally equal to the cost of the plants , unless heavy caudiciforme plants are ordered when the cost of the postage can be far more than the value of the plants - approximately 1.5 times the price of the plants.  
Should only lighter plants e.g. stapeliads, conophytums or haworthias be ordered, the postage is approximately 1/3 of the value of the order.
  - b) **By airfreight:** If the weight of the plants to be dispatched is likely to exceed 40 kg it is probably advantageous to send the plants by airfreight instead of airmail. In this case we can dispatch them "Airfreight Collect" There will be a charge by the agent forwarding the consignment from S.A. and there is likely to be a similar charge levied by the agents at the airport on arrival.
3. The cost of the **phytosanitary certificate compulsory** for all plant exports @ R200 per order.
4. A CITES PERMIT is needed for e.g. pachypodiums, euphorbias, anacampseros, aloes etc. @ R300.
5. Kindly note that the cost of the "Cites" certificate and the phytosanitary certificate plus the postage must be paid by us. When ordering, this amount must be added to the cost of the plants ordered.
6. Many succulent plants are extremely vulnerable to exposure to temperature changes and /or extended periods out of a growing medium. Sheilam cannot be held responsible for loss of plants where there has been a delay in delivery of plants as can occur in transit or at customs or if the client fails to fetch the plants after clearance. It is most important to contact your customs if the plants are not delivered within 10 days.
